

# JOAKIM TINDERHOLT & His Band

It's finally here. Friday June 30<sup>th</sup> Joakim Tinderholt's new album "Hold On" will be available for download and streaming on all major digital platforms. The album will be available on CD from Big H Records (Norway) and Rhythm Bomb Records (international release). The LP will be out in the late summer on Rhythm Bomb Records.

Almost three years after the release of their debut album Joakim Tinderholt & his band are finally ready with the follow-up. Since signing with German record label Rhythm Bomb Records, in 2015, the band has made it to big festival stages across Europe. Most notably Screamin' Festival (Spain), Rhythm Riot (UK) and Moulin Blues Festival (Netherlands). This summer they are playing Sjock Rock in Belgium and will share the stage with big rock acts like The Hellacopters.

The new record is based on the same recipe as the first; a good mix of new original tunes and favorites from the live set. This time Joakim has penned two songs by himself and co-written another two with guitarist Hoeye and bassplayer Troiani. The covers are gems from the catalogues of Ike Turner, Freddie King and country singer Johnny Rivers, among others. Enjoy!

*«Oslo-based singer and guitarist Tinderholt generates precisely the sort of good-time voltage that keeps vintage blues and r&b sounds relevant in the here-and-now. With a throwback vocal delivery that can carry the whole show on its shoulders.»*
